Publisher’s Note

On behalf of British Journal of Anaesthesia, the Publisher would like to announce that the Journal has a new policy covering publication of data from clinical trials concordant with that of the International Committee of Medical Journal Editors (www.icmje.org/).

From January 2009, British Journal of Anaesthesia will only consider for publication results from clinical trials fully registered in a publically accessible trials registry at or before the onset of participant enrollment. Further details of the policy can be found in the updated Instructions for Authors, which are available online here: http://www.oxfordjournals.org/our_journals/bjaint/for_authors/index.html

Manuscripts on clinical trials should also comply with the Consolidated Standards of Reporting Trials (CONSORT) and include a flow diagram presenting the enrollment, intervention allocation, follow-up, and data analysis with number of subjects for each (www.consort-statement.org).

Questions on this new policy for British Journal of Anaesthesia should be addressed to the editorial office:

Editorial Board Membership

The British Journal of Anaesthesia invites applications for ordinary membership of its Editorial Board to commence in January 2010. The appointment will be for a 5 year term renewable for a further 5 years. To be eligible for appointment applicants should:

1. Be engaged in a substantive academic or clinical position, and preferably with significant experience of clinical or experimental research, in one of the fields of anaesthesia, critical care and pain medicine within Europe;
2. Have made a significant contribution to the work of the British Journal of Anaesthesia through the thorough and efficient reviewing of manuscripts and/or publication of original articles.

The duties of Editorial Board membership include:

1. The review of at least 20 articles per year submitted for publication as requested by the editors;
2. To attend and contribute to the three Editorial Board Meetings each year;
3. To provide an editorial and a scientific review article during each five year term;
4. Upon request, to serve as a member of BJA sub-committees.

Applications, in the form of a covering letter, a brief CV (maximum 2 sides of A4) and a list of publications in the past 5 years should be sent to the Administration Director, Professor PM Hopkins p.m.hopkins@leeds.ac.uk by 20 April 2009.

1st International Symposium on Spine and Paravertebral Sonography for Anaesthesia and Pain Medicine

Prince of Wales Hospital, Hong Kong, April 9–11, 2009

The conference is organized by the Department of Anaesthesia & Intensive Care, the Chinese University of Hong Kong. It will demonstrate the applications of ultrasound for spine and paravertebral interventions in anaesthesia and pain medicine. The symposium will include lectures, expert scanning demonstration sessions, discussions, hands-on workshops, and exhibition of the latest equipment, drugs, and products.

ASURA 2009 (Australasian Symposium on Ultrasound and Regional Anaesthesia)

Queensland University of Technology, Brisbane, Australia, November 20–23, 2009

In the wake of the highly successful ASURA 2008, held at St Vincent’s Hospital Melbourne in February of 2008, the Regional Anaesthesia Special Interest Group were keen to repeat the process for anyone who may have missed out the first time around. General feedback indicated that delegates found the hands-on workshops to be of significant interest and benefit, and as a result, these workshops will be run again in 2009.

OXFORD OPEN

The British Journal of Anaesthesia has joined ‘Oxford Open’, an optional open access initiative from our publishers, Oxford University Press. Authors of accepted manuscripts will be asked if they wish to choose to pay for access to the article to be made available immediately on publication. Oxford Open gives authors the opportunity to pay an ‘open access’ publication charge to make their paper freely available online immediately via the journal’s web site. The optional charge payable will depend on whether the Corresponding Author is based in an institution with an online subscription to BJA and special charges will apply to authors in developing countries. Readers do not need a journal subscription to view open access content. If an author does not choose to pay the open access publication charge, their paper will be published in the normal manner (this usually means that it will only be available immediately to subscribers). More information about the initiative can be found at http://www.oxfordjournals.org/oxfordopen/
