British Journal of Anaesthesia

Chairman
E. FALKNER HILL
M.D., Ch.B.,(Vic.), F.F.A.R.C.S., D.P.H.(Man.)

Editor of General Issues
J. E. RIDING
M.D., F.F.A.R.C.S., D.A.

Editor of Postgraduate Educational Issues
A. R. HUNTER
M.D., F.R.C.S.(Glas.), F.F.A.R.C.S., D.A.

Volume XXXVI
1964

Published by
JOHN SHERRATT AND SON
ALTRINCHAM
CONTENTS

EDITORIAL

Training for what? ........................................ 1

ORIGINAL

Effect of radiant heating on pulmonary diffusing capacity in man .... 2

Inspired gas, rebreathing and apparatus deadspace .................. 5

Cerebral blood flow during trichloroethylene anaesthesia: a comparison with halothane .................................. 11

Neuromuscular blocking and hypotensive actions of streptomycin, and their reversal ........................................ 19

CLINICAL

Effects of methoxyflurane (Penthane) anaesthesia in children .... 26

Observations on dental anaesthesia introduced with methohexitone. I: Induction of anaesthesia ........................................ 31

Clinical studies of induction agents. VIII: A comparison of the effects of atropine and hyoscine on the course and sequelae of thiopentone anaesthesia ................................ 39

Heptabarbitone as a pre-operative sedative ........................................ 46

CASE REPORT

Oedema and cyanosis of the hand following injections into a vein on the dorsum of the hand ........................................ 50

APPARATUS

The use of ethylene oxide for sterilization of mechanical ventilators ........................................ 53
CONTENTS

A hidden fault in cuffed tubes .......................... 58

A robust reliable throat spray .......................... 61

A movable operating table top for tonsillectomy .......... 62
By Massey Dawkins, M.A., M.D., F.F.A.R.C.S., University College Hospital, London.

EDITORIAL
A new journal ........................................... 67

ORIGINAL
The effect of atropine on pulmonary gas exchange ........ 68
By J. F. Nunn, Ph.D., F.F.A.R.C.S., and N. A. Bergman, M.D., with the technical co-operation of Miss D. C. Casselle, Research Department of Anaesthetics, Royal College of Surgeons, London.

Effect of atropine on pulmonary diffusion capacity in man .......................... 74
By H. H. Rotman, M.D., Respiration Unit, Department of Neurology, United Oxford Hospitals, Oxford.

CLINICAL
Hypothermia for neurosurgery (with particular reference to profound hypothermia and cerebral arterial inflow occlusion) ........ 77

Experimental study of arrhythmias and bronchospasm associated with the use of hexafluorocarbon ........................................ 83
By J. W. Mostert, F.F.A.R.C.S., D.A., Department of Anaesthesia, Johannesburg Hospital, and H. Kundig, lately Department of Physiology, University of Witwatersrand, Johannesburg, Republic of South Africa.

Observations on dental anaesthesia introduced with methohexitone. II: Maintenance and recovery ......................... 94

Clinical studies of induction agents. IX: A comparative study of a new eugenol derivative, FBA.1420, with G.29.505 and standard barbiturates ........................................ 100
By J. W. Dundee, M.D., Ph.D., F.F.A.R.C.S., and R. S. J. Clarke, M.D., B.Sc., F.F.A.R.C.S., Department of Anaesthetics, The Queen's University of Belfast, and Musgrave Park Hospital, Balmoral, Northern Ireland.

Clinical studies of induction agents. X: The effect of phenothiazine premedication on thiopentone anaesthesia ........................................ 106

Anesthetic mortality in tonsillectomy and adenoidecotomy ........................................ 110
By D. Denison Davies, F.F.A.R.C.S., Institute of Laryngology and Otolgy, University of London.

REVIEW
Ayre's T-piece: a review of its modifications ............... 115
By G. A. Harrison, M.B., F.F.A.R.C.S., Department of Anaesthetics, Welsh National School of Medicine, Cardiff, Wales.

EDITORIAL
Rational approach to inhalation anaesthesia ................ 123

SYMPOSIUM ON PHARMACOKINETICS OF INHALATION ANAESTHETIC AGENTS
The pharmacokinetics of inhalation anaesthetics: clinical applications .......................... 124
By E. M. Papper, M.D., Department of Anesthesiology, Columbia University, and Anesthesiology Service, The Presbyterian Hospital, New York City, U.S.A.
CONTENTS

Mathematical aspects of the uptake, distribution and elimination of inhaled gases and vapours ... ... ... 129
By W. W. Mapleson, Ph.D., A.Inst.P., Department of Anaesthetics, Welsh National School of Medicine, Cardiff.

Anaesthetic solubility in blood and tissues: values and significance ... 140
By Edmond I. Eger (II), M.D., and C. Phillip Larson, Jr., M.D., Department of Anesthesia, University of California Medical Center, San Francisco, California, and the United States Naval Hospital, Oakland, California, U.S.A.

Protein and lipid binding of volatile anaesthetic agents ... ... ... 150
By R. M. Featherstone, B.A., M.S., Ph.D., LL.D., and B. P. Schoenborn, B.A., Ph.D., Department of Pharmacology, University of California, San Francisco Medical Center, San Francisco, California, U.S.A.

Respiratory and circulatory factors in uptake and distribution of volatile anaesthetic agents ... ... ... 155
By Edmond I. Eger (II), M.D., Department of Anesthesia, University of California, San Francisco Medical Center, San Francisco, California, U.S.A.

Uptake and excretion of nitrous oxide: a prototype of inert gas exchange ... 172
By Robert M. Epstein, M.D., Department of Anesthesiology, Columbia University, College of Physicians and Surgeons, New York, U.S.A.

Uptake and elimination of inhalation anaesthetics during outpatient anaesthesia ... ... ... ... 180

Pharmacokinetics of halothane and ether ... ... ... ... 193
By R. A. Butler, Ph.D., M.B., Ch.B., F.F.A.R.C.S., D.A., Department of Anesthesia, University of Pennsylvania School of Medicine, 3400 Spruce Street, Philadelphia, Penn., U.S.A.

MEDICAL ELECTRONICS

Some thoughts on the teaching of instrumentation techniques and electronics in medicine ... ... ... ... 200

EDITORIAL

Treatment of shock ... ... ... ... 205

ORIGINAL

The effect of the respiratory flow pattern on rebreathing in a T-piece system 206
By G. A. Harrison, M.B., F.F.A.R.C.S., Department of Anaesthetics, Welsh National School of Medicine, Cardiff, Wales.

Comparative haemodynamics during operation, unreplaced blood loss, and anaesthesia with ether or halothane in nitrous oxide and oxygen ... ... ... 212
By Gerald F. Tuohy, M.D., and Richard A. Theye, M.D., Section of Anesthesiology, Mayo Clinic and Mayo Foundation, Rochester, Minnesota, U.S.A.

The analeptic effects of doxapram hydrochloride on thiopentone induced depression ... ... ... ... 216
By Ephraim S. Siker, M.D., Kamil Mustafa, M.D., and Bernard Wolfson, M.B., Ch.B., F.F.A.R.C.S., Department of Anesthesiology, Mercy Hospital, Pittsburgh, Pennsylvania, U.S.A.

Beta-adrenergic blockade with pronethalol during anaesthesia ... ... ... ... 224

CLINICAL

Orotracheal anaesthesia for bronchoscopy ... ... ... ... 233
By J. B. Borman, M.B., F.R.C.S., J. T. Davidson, F.F.A.R.C.S., and S. Samueloff, M.D., Departments of Thoracic Surgery and Anaesthesia, Hadassah University Hospital, and Department of Physiology, Hebrew University, Hadassah Medical School, Jerusalem, Israel.

Observations on dental anaesthesia introduced with methohexitone. III: Blood pressure changes ... ... ... ... 237

## CASE REPORTS

### Halothane and phaeochromocytoma

### Anaesthesia for mitral valvotomy complicated by hypotension due to pericardial effusion

## APPARATUS

### A device for mechanical ventilation suitable for newborn and infants during anaesthesia

By N. H. Doctor, M.B., B.S., D.A., F.F.A.R.C.S., Department of Anaesthetics, University College Hospital, Ibadan, Nigeria.

## EDITORIAL

### Teaching of general anaesthesia for dental surgery

## ORIGINAL

### Effect of white sound on pain threshold

### The influence of carbon dioxide on the neuromuscular block caused by tubocurarine chloride in the human subject

By Anis Baraka, M.D.(Cairo), Department of Anaesthesia, University of Liverpool, England.

### Evaluation of muscular relaxation in controlled respiration

### An introduction to FBA.1420: a new non-barbiturate intravenous anaesthetic

### Bronchopleural fistula management during anaesthesia

By I. S. Khurana, M.B., B.S., D.A., and V. N. Sharma, M.B., B.S., D.A., Silver Jubilee Tuberculosis Hospital, Delhi, India.

### Clinical studies of induction agents. XI: The influence of some intravenous anaesthetics on the respiratory effects and sequelae of suxamethonium

### Respiratory obstruction due to impaction of the epiglottis in an adult

By J. C. K. Thomas, M.B., Ch.B., D.A., Department of Anaesthesia, University of Liverpool, England.

### Difficult endotracheal extubation

By J. T. Davidson, L.R.C.P., D.A., F.F.A.R.C.S., and E. Edelistein, M.D., Department of Anaesthesia, Rothschild Hadassah University Hospital, Jerusalem, Israel.

### A universal valve for anaesthetic circuits

By Shaotsu Lee, M.D., Division of Anaesthesiology, West Virginia University Medical Center, Morgantown, West Virginia, U.S.A.

### Presenting and labelling of drugs: important safety measures

By J. G. K. Thomas, M.B., Ch.B., D.A., Department of Anaesthesia, University of Liverpool, England.
CONTENTS

ORIGINAL

Factors influencing the arterial oxygen tension during halothane anaesthesia with spontaneous respiration .......... 327
By J. F. Nunn, Ph.D., M.B., Ch.B., F.F.A.R.C.S., Medical Research Council External Staff, Hammersmith Hospital, London.

Quality of epidural blockade. I: Influence of physical factors ...... 342

ANALGESIC DRUGS

Clinical assessment of analgesic drugs: (4) Intravenous trial ...... 353

Factors affecting the termination of curarization in the human subject .... 356

RESEARCH METHODS

The measurement of uptake of nitrous oxide by pneumotachography. I: Apparatus, methods and accuracy ... 363

CASE REPORT

An unusual complication after stellate ganglion block ..... 379
By F. Magora, M.D., Department of Anaesthesiology, Hadassah University Hospital, Jerusalem, Israel.

EDITORIAL

The end of an era ...... 385
“Scientific” versus “clinical” articles .. 385

ORIGINAL

Histological findings following intrathecal injections of phenol solutions for relief of pain ...... 387
By Marion C. Smith, B.Sc., M.D., Member of the External Staff, Medical Research Council, National Hospital, Queen Square, London.
The influence of injected thiopentone on muscle tissue

Acid-base balance during epidural analgesia

CLINICAL
A clinical trial of a mixture of levorphanol and levallorphan as an oral analgesic
By John W. Dundee, M.D., Ph.D., F.F.A.R.C.S., The Queen's University of Belfast, Northern Ireland.

Methoxyflurane: a clinical study of fifty selected cases

The use of suxamethonium infusion in anaesthesia for adenotonsillectomy

GENERAL INTEREST
Hazards of endotracheal anaesthesia

CASE REPORTS
Suspected drug sensitivity reaction

"Put not your trust in tubes": cerebral irritation following respiratory obstruction
By Margaret M. Clark, M.B., Ch.B., D.A., The General Hospital, Burton-on-Trent, Staffordshire, England.

APPARATUS
The advantages of a combined T-piece and non-rebreathing valve: a simple device
By Shaotsu Lee, M.D., West Virginia University Medical Center, Morgantown, West Virginia, U.S.A.

An endo-oesophageal stethoscope

SYMPOSIUM ON THE TREATMENT OF RESPIRATORY FAILURE
The physiology and pathology of acute hypoxia

The immediate treatment of respiratory failure
By Dr. Henning Ruben, Department of Anaesthesia, Finsen Institute, Copenhagen, Denmark.

The differential diagnosis of conditions leading to acute cardiac arrest outside the operating theatre
By J. P. Shillingford, M.D., F.R.C.P., Postgraduate Medical School, London.

The physiopathology and treatment of drowning

Hyperbaric oxygen in relation to circulatory and respiratory emergencies
By D. Gordon McDowall, F.F.A.R.C.S., University Department of Anaesthetics, Royal Infirmary, Glasgow, Scotland.

The nature and management of electric shock
The use of hypothermia and dehydration in the treatment of severe cerebral hypoxia

By H. R. S. Harley, M.S., F.R.C.S., Sully Hospital, Penarth, Glamorgan, Wales.

Neonatal resuscitation

By M. E. Tunstall, M.B., B.S., F.F.A.R.C.S., Department of Anaesthetics, Royal Infirmary, Aberdeen, Scotland.

A clinical trial of hayatin methiodide as relaxant in 100 cases

The protective effect of thiopentone against muscular pain and stiffness which follows the use of suxamethonium chloride

By H. J. L. Craig, M.B., B.Ch., F.F.A.R.C.S., Lurgan and Portadown Hospital, Lurgan, Northern Ireland.

A study of the biphasic ventilatory effects of propanidid

By Eva Harnik, F.F.A.R.C.S., Department of Anaesthesia, Royal Free Hospital, London.

Changes in pulse rate and blood pressure after extubation

By B. R. Hutchinson, M.B., Ch.B., Palmerston North Hospital, New Zealand.

Evaluation of the Servomex paramagnetic analyzer

A non-return valve for use with intermittent positive pressure respiration during paediatric surgery

Two new operating table head screens

By Barbara C. Roberts, B.Sc, M.B., B.Ch., F.F.A.R.C.S., Department of Anaesthetics, Welsh National School of Medicine, Cardiff, Wales.

Investigation of respiratory and circulatory effects of ethamivan in the dog and cat

Some observations of critical closing pressures in the peripheral circulation of anaesthetized patients

Relationship between rate of elimination of tubocurarine and rate of decline of its pharmacological activity

By G. Levy, Pharm.D., School of Pharmacy, State University of New York, Buffalo, N.Y., U.S.A.
## CONTENTS

### EDITORIAL

- Standard terminology .....

### ORIGINAL

- Neurophysiological studies on nitrous oxide and diethyl ether anaesthesia ...
  - By S. Kato, M.D., H. Yamamura, M.D., Department of Anesthesiology, School of Medicine, University of Tokyo, and H. Kawamura, M.D., Department of Neurophysiology, Brain Research Institute, University of Tokyo, Japan.

- Relaxant action in man of dipryandium chloride (M & B 9105A). (A steroid bis-quaternary ammonium salt) ...

- The measurement of uptake of nitrous oxide by pneumotachography. Part II: Experimental procedure and results ...

### CLINICAL

- A comparison of morphine and pethidine in postoperative pain ...

- Clinical experiences with diallyl-nor-toxiferine in children ...

- Carbon dioxide acidosis during open heart surgery ...

### REVIEW

- Liver injury in the surgical patient: a critical review ...

### CASE REPORTS

- Myoglobinuria with acute renal failure possibly induced by suxamethonium ...
  - By Kn-A. Bennike, M.D., D.A., and S. Jarnum, M.D., Department of Anaesthesiology, Medical Department B, Surgical Department A, and Department of Clinical Biochemistry, Bispebjerg Hospital, Copenhagen, Denmark.

- Methaemoglobinemia following the use of prilocaine ("Citanest") ...

### APPARATUS

- A new method for providing continuous extradural analgesia ...

### PROCEEDINGS OF THE ANAESTHETIC RESEARCH GROUP (NOVEMBER 20)

- Pneumotachography during dental anaesthesia ...

- Clinical studies of drugs given before anaesthesia. V: Pethidine 100 mg alone and with atropine or hyoscine ...

- Assisted ventilation in the post-bypass period ...

- The measurement of uptake of nitrous oxide by pneumotachography. Part II: Experimental procedure and results ...

- Neurophysiological studies on nitrous oxide and diethyl ether anaesthesia ...
  - By S. Kato, M.D., H. Yamamura, M.D., Department of Anesthesiology, School of Medicine, University of Tokyo, and H. Kawamura, M.D., Department of Neurophysiology, Brain Research Institute, University of Tokyo, Japan.
Alterations in response to somatic pain associated with anaesthesia. XVI: Methohexitone

By J. W. Dundee, M.D., Ph.D., F.F.A.R.C.S., Department of Anaesthetics, The Queen's University of Belfast, Northern Ireland.

R E V I E W

Acute intermittent porphyria: the anaesthetic problem and its background

By P. C. Murphy, M.B., Ch.B., F.F.A.R.C.S., Department of Anaesthesia, Royal Free Hospital, London.
