EDITORIAL
Alveolar-arterial gas tension gradients...........1

ORIGINAL
Hypoxaemia and atelectasis produced by forced expiration...3
By J. F. Numm, Ph.D., F.F.A.R.C.S.,
Satishanandan, F.F.A.R.C.S., N. A.
Bergman, M.D., and J. W. Laws,
M.R.C.P., F.F.R., Department of Anaes-
thetics and Department of Radiodiagnosis
at Postgraduate Medical School, University
of London and Royal College of
Surgeons of England.
Venous blood as an alternative to
arterial blood for the measurement of
carbon dioxide tensions...........13
By E. M. Harrison, B.Sc., M.B., F.Ch.,
F.F.A.R.C.S., and S. Galloon, M.Sc.,
Department of Anaesthetics, Welsh National
School of Medicine, Cardiff, Wales.
The action of adiabatic effects on the
compliance of an artificial thorax .......19
By D. W. Hill, M.Sc., Ph.D., F.Inst.P.,
A.M.I.E.E. and Virginia Moore, Royal
College of Surgeons of England and
Chelsea College of Science and Tech-
nology, London.

CLINICAL
Pethidine compared with pethidine plus
levallorphan and with a placebo.........23
By P. J. Tomlin, M.B., B.S.,
F.F.A.R.C.S., Department of Anaes-
thetics, Hammersmith Hospital and
Postgraduate Medical School, London.
Cyclopropane induction to endotracheal
ether anaesthesia in infants and
children...........29
By N. Paymaster, M.D., H. Wollman,
M.D., and L. Bachman, M.D., Division
of Anaesthesiology of the Children's
Hospital of Philadelphia, and the Depart-
ment of Anaesthesiology of the University
of Pennsylvania, Philadelphia, Pennsylvania,
U.S.A.
Postoperative shivering and hypoxaemia
after halothane, nitrous oxide and
oxygen anaesthesia...........35
By H. D. Jones, M.B., B.S., F.F.A.R.C.S.,
and C. A. B. McLaren, M.B., Ch.B.,
F.F.A.R.C.S., Royal Air Force Hospital,
Therapeutic inhalation anaesthesia.......42
By B. V. Petrovsky, M.D., F.R.C.S.(I),
and S. N. Yefuni, Dr. Med. Sci., Doc.
Anaesth., Hospital Surgical Clinic and
Research Laboratory of Anaesthesiology
of the First Moscow Medical Institute,
U.S.S.R.
Clinical studies of induction agents.
XII: The influence of some pre-
medicants on the course and sequelae
of propanidid anaesthesia......51
By R. S. J. Clarke, M.D., B.Sc.,
F.F.A.R.C.S., and J. W. Dundee, M.D.,
Ph.D., F.F.A.R.C.S., Department of
Anaesthetics, The Queen's University of
Belfast, and Musgrave Park Hospital,
Balmoral, Northern Ireland.
Placental transfer of atropine and the
effect on foetal heart rate...........57
By A. H. John, M.B., F.R.C.S.(Edin.),
M.R.C.O.G., Department of Obstetrics
and Gynaecology, Welsh National School
of Medicine, Cardiff, Wales.

CASE REPORT
Fatal cerebral anoxia following the use
of lignocaine spray for bronchoscopy.....61
By H. R. S. Harley, M.B., M.S., F.R.C.S.,
Department of Thoracic Surgery, United
Cardiff Hospitals and Sully Hospital,
Sully, Glamorganshire, K. M. Lawrence,
M.A., M.B., Ch.B., M.C.Path., Depart-
ment of Pathological Pathology, Depart-
ment of Child Health, Welsh National
School of Medicine, Llandough Hospital,
Penarth, Glamorganshire, R. M. E. Seal,
B.Sc., M.B., B.Ch., M.R.C.P., F.C.Path.,
Department of Pathology, Sully Hospital,
Sully, Glamorganshire, and J. H.
Stevens, M.B., B.S., F.F.A.R.C.S.,
Department of Anaesthetics, Cardiff
Royal Infirmary, Cardiff, Wales.
APPARATUS
Transportable apparatus for halothane anaesthesia

EDITORIAL
Aid to develop anaesthesia overseas...

ORIGINAL
Simple methods for the determination of the concentrations of carbon dioxide and oxygen in blood
By R. J. Linden, M.B., Ch.B., Ph.D., J. R. Ledsome, M.B., Ch.B., F.F.A.R.C.S., Cardiovascular Investigation and Research Unit, Department of Physiology, School of Medicine, University of Leeds, England.

Effects of the acid-base state upon the temperature coefficient of pH of blood

Effects of halothane and chloroform on the liver in protein-deficient mice
By D. Wingard, M.D., H. S. Davis, M.D., and D. Leonard, M.D., Departments of Anesthesiology and Pathology, Western Reserve University School of Medicine, Cleveland, Ohio, U.S.A.

APPARATUS
Increase in halothane concentration following refilling of certain vaporizers

Fires and explosions with compressed gases: report of an accident
By Y. Ito, M.D., H. Horikawa, M.D., and K. Ichiyumagi, M.D., Department of Anesthesiology, Niigata University School of Medicine, Niigata, Japan.

EDITORIAL
Brave new world?

ORIGINAL
Effect of trimetaphan on hemodynamics and oxygen consumption during halothane anesthesia in man
By R. A. Theye, M.D., and G. F. Tuohy, M.D., Section of Anesthesiology, Mayo Clinic and Mayo Graduate School of Medicine, Rochester, Minnesota, U.S.A.
CONTENTS

A study of the arterial clearance of Xenon 133 in man ... ... ... ... 153

Duration of the neuromuscular blocking action of streptomycin ... ... 158

CLINICAL

Prolonged nasotracheal intubation: a review of its development in a paediatric hospital ... ... ... 161

The immediate postoperative care of the myasthenic patient following thymectomy ... ... ... ... ... ... 174

Anaesthesia in patients with sickle-cell anaemia ... ... ... ... ... ... ... 181
By R. A. Browne, M.B., Ch.B., D.A., F.F.A.R.C.S., Department of Anaesthetics, University Hospital of the West Indies, Jamaica, West Indies.

The anaesthetist and the early management of acute head injuries ... ... ... 189

The clinical evaluation of narcotic and sedative drugs. II: A re-evaluation of pethidine and Pethilorfan ... ... ... ... 199

CASE REPORT

Repeated cardiac arrest with halothane ... ... ... 208
By M. K. Sykes, M.A., M.B., B.Chir., F.F.A.R.C.S., Departments of Anaesthesia, Postgraduate Medical School of London and Hammersmith Hospital, London.

APPARATUS

Gas-holding apparatus for use in gas chromatography ... ... ... ... 210
By Carolyn M. Monahan, B.V.Sc., M.R.C.V.S., and I. F. H. Purchase, Ph.D., B.V.Sc., M.R.C.V.S., Department of Veterinary Clinical Studies, School of Veterinary Medicine, Cambridge.
