FLEXIHUB is TAMPERPROOF
it cannot be accidently Switched-Off

Is the device you are using Tamperproof?

The patented Flexihub is designed so that when connected to a luer or luer lock ‘line’ the Flexihub cannot switch-off.

Strippable protective sleeve-British Patent No. 1601691
Wallace Flexihub-British Patent No. 1588362
US Patent No. 4,360,024
other patents applied for

Internal Jugular Cannulae
Number 1612GS (16g x 12cm)
Number 1412GS (14g x 12cm)
Number 1608GS (16g x 8cm)

JANUARY

EDITORIAL: Brain ischaemia—its prevention and treatment D. G. McDowall

SYMPOSIUM ON BRAIN ISCHAEMIA—ITS PREVENTION AND TREATMENT

The pathology of brain ischaemia and possibilities for therapeutic intervention D. I. Graham

Brain oedema following brain ischaemia and the influence of therapy I. Klatzo

Ionic changes in brain ischaemia and alterations produced by drugs D. Heuser and H. Guggenberger

Flow thresholds in brain ischaemia and the effects of drugs L. Symon

Ischaemic brain damage: the role of excitatory activity and of calcium entry B. Meldrum, M. Evans, T. Griffiths and R. Simon

Cerebral metabolism in ischaemia: neurochemical basis for therapy B. K. Siesjo and T. Wieloch

EEG monitoring and evoked potentials in brain ischaemia P. F. Prior

Barbiturates in brain ischaemia H. M. Shapiro

Drug therapy in brain ischaemia S. E. Gisvold and P. A. Sucn

Induced hypotension and brain ischaemia D. G. McDowall

Head injury and brain ischaemia—implications for therapy J. D. Miller

FEBRUARY

EDITORIAL: Receptor binding and its significance C. J. Hull

CLINICAL INVESTIGATION

Use of nitroglycerine to produce controlled decreases in mean arterial pressure to less than 50 mm Hg M. Guggiari, F. Dargérou, A. Lienhart, S. Gallais, P. Motes, J. Philippon and P. Viars

Blood cyanide and thiocyanate concentrations produced by long-term therapy with sodium nitroprusside C. J. Vesey and P. V. Cole

Effect of induction of anaesthesia with etomidate on corticosteroid synthesis in man D. J. R. Duthie, R. Fraser and W. S. Nimmo

Use of atracurium and vecuronium in patients with oesophageal varices C. F. Bell, J. M. Hunter, R. S. Jones and J. E. Utting

Comparison of the cognitive effects of premedication with hyoscine and atropine S. Anderson, R. McGuire and D. McKenna

Non-verbal response to intraoperative conversation H. L. Bennett, H. S. Davis and J. A. Giannini

Comparison of the ocular effects of atropine or glycopyrrolate with two i.v. induction agents J. Greenan and J. Prasad

Comparison between glycopyrrolate and atropine in a mixture with neostigmine for reversal of neuromuscular blockade. Studies in patients following open heart surgery M. G. Salem, J. C. Richardson, G. A. Meadows, G. Lamplugh and K. M. Lai

Pattern of CNS recovery following reversal of neuromuscular blockade. Comparison of atropine and glycopyrrolate S. E. Sheref

EXPERIMENTAL

Clinical actions of fentanyl and buprenorphine. The significance of receptor binding R. A. Boas and J. W. Villiger

Effect of a mixture of pyridostigmine and atropine on forced expiratory volume (FEV1) and serum cholinesterase activity in normal subjects B. F. Feldt-Rasmussen, K. Greffke, H. Mosbech and H. K. Hanel

Effects of increasing depth of anaesthesia on phrenic nerve and hypoglossal nerve activity during the swallowing reflex in cats T. Nishino, Y. Honda, T. Kohchi, M. Shirahata and T. Yonezawa

Chronotropic and dromotropic effects of atropine and hyoscine methobromide in unanaesthetized dogs J. P. Kantelip, M. Alaitiene, G. Gueorguiev and P. Duchene-Marullaz

MAY

CLINICAL INVESTIGATION

Isoflurane as a routine anaesthetic in general surgical practice. J. F. Nunn

Cardiac rate and rhythm during anaesthesia for dental extraction. A comparison of halothane, enflurane and isoflurane. W. R. Casson and R. M. Jones

Maternal and neonatal responses related to the volatile agent used to maintain anaesthesia at Caesarean section. J. S. Crawford, M. Lewis and P. Davits

Fade characteristics and onset times following administration of pancuronium, tubocurarine and a mixture of both agents. J. N. Cashman, R. M. Jones and L. M. Vella

EXPERIMENTAL

Effects of enflurane on myocardial ischaemia in the dog ........................................... 497

Effect of propofol, thiopentone and etomidate on adrenal steroidogenesis in vitro ............. 505
A. Lambert, R. Mitchell and W. R. Robertson

Comparison of the effects of etomidate, thiopentone and propofol on cortisol synthesis ....... 509
C. J. Kenyon, L. M. McNeil and R. Fraser

Enzyme inhibition by steroid anaesthetic agents derived from progesterone ..................... 512
P. Banks and C. B. Peace

Effects of spinal blockade with bupivacaine on parturition in rats ................................ 515
D. F. Li, M. Bahar and M. Rosen

Impaired metabolic activity of phagocytic cells after anaesthesia and surgery .................. 520
L. Bardosi and M. Tekercs

APPARATUS

Photo-electric plethysmography as a monitoring device in anaesthesia. Application and interpretation .................................................................................................................. 524
J. C. Dor las and J. A. Nijboer

Comparison of plethysmograms taken from finger and pinna during anaesthesia ............... 531
J. A. Nijboer and J. C. Dor las

CASE REPORTS

Injury to terminal branches of the trigeminal nerve following tracheal intubation ............... 535
N. S. Faithfull

Extradural blood patch—why delay? ..................................................................................... 538
H. Quaynor and M. P. Corbey

CORRESPONDENCE

Cutaneous reactions to atracurium ..................................................................................... 541

Anæsthesia for fractured hip ......................................................................................... 541

Airway obstruction—an unusual presentation ............................................................... 541

Simple atracurium infusions ............................................................................................. 542

Intercostal blockade ........................................................................................................ 543

pH and atracurium .......................................................................................................... 545

JUNE

EDITORIAL: Naloxone—paradox or panacea? ................................................................. 547
C. A. Pinnock and G. Smith

CLINICAL INVESTIGATION

Atracurium: clinical strategies for preventing histamine release and attenuating the haemodynamic response .......................................................... 550

Effect of etomidate on the auditory evoked response in man .......................................... 554
C. Thornton, C. P. H. Heneghan, M. Navararas Raj, P. E. Bateman and J. G. Jones

Ventilatory responses of children to changes in deadspace volume. Studies using the T-piece system (Mapleson F) system .................................................. 562
A. J. Charlton, S. G. E. Lindahl and D. J. Hatch

Changes in ventilatory patterns during halothane anaesthesia in children ......................... 569
I. Murat, M. M. Deller, K. MacGee and C. Saint-Maurice

Rectal induction of anaesthesia in children with methohexaftone. Patient acceptability and clinical pharmacokinetics ......................................................... 573
H. Quaynor, M. Corbey and S. Björkman

Effects of the rectal administration of diazepam. Diazepam concentrations in children undergoing general anaesthesia ......................................................... 578
H. Sonander, E. Arnold and K. Nilsson

Comparison of diazepam and midazolam for sedation during local anaesthesia for bronchoscopy ................................................................................................. 581
K. Koritilla and J. Tarkkanen

Cardiovascular effects of a chloromethiazole infusion in combination with extradural anaesthesia ......................................................................................... 587
C. J. Sinclair, D. Fagan and D. B. Scott

Effect of alfentanil anaesthesia on the adrenocortical and hyperglycaemic response to abdominal surgery .......................................................... 591
I. W. Muller, T. Krantz, E. Wandall and H. Kehlet

Continuous monitoring of blood glucose concentration during open heart surgery ........ 595
C. K. McKnight, M. Elliott, D. T. Pearson, K. G. M. M. Alberti and M. P. Holden

Factors affecting train-of-four fade ................................................................................. 602
A. C. Pearce, W. R. Caison and R. M. Jones

EXPERIMENTAL

Rapid induction of halothane anaesthesia in man ......................................................... 607
J. M. Ruffle, M. T. Snider, J. L. Rosenberger and W. B. Latta

Differential nerve blocking activity of amino-ester local anaesthetics............................... 612
J. A. Wildsmith, A. J. Gissen, J. Gregus and B. G. Covino

Nitrous oxide and wound healing ...................................................................................... 621
T. A. Algie, A. Seth, J. C. Barbanel, D. J. Galloway, W. M. Gray and A. A. Spence

Nitrous oxide inhalation does not influence plasma concentrations of β-endorphin or met-enkaphalin-like immunoactivity ............................................. 624
S. F. Evans, M. Stringer, M. D. G. Bukht, W. A. Thomas and S. J. Tomlin

In vitro interactions between the benzodiazepine antagonist Ro 15-1788 and the steroid anaesthetic Althesin in rats ................................................................. 629
B. Wardley-Smith and H. J. Little
CASE REPORT

Anæsthesia for surgery in a patient with a transplanted heart

AUGUST

EDITORIAL: Back to clinical impressions

A. R. Hunter

CLINICAL INVESTIGATION

Comparison of the new emulsion formulation of propofol with methohexitone and thiopentone for inducing anaesthesia in day cases

N. MacKenzie and I. S. Grant

Comparison of ICI 35868, etomidate and methohexitone for day-case anaesthesia

J. K. G. Wells

An emulsion formulation of ICI 35868 (propofol) for the induction and maintenance of anaesthesia

J. W. Sear and M. C. Allen

Effect of speed of injection on induction of anaesthesia using propofol

G. Rolly, L. Verischelen, L. Huyghe and H. Munroop

Comparison of the efficacy of chlormethiazole and diazepam as i.v. sedatives for supplementation of extradural anaesthesia

L. T. Scow, L. E. Mather and M. J. Cousins

Influence of tubocurarine, pancuronium and atropine on bronchomotor tone

D. A. Simpson, D. J. Wright and J. E. Hammond

The use of different doses of vecuronium in patients with liver dysfunction

J. M. Hunter, C. J. R. Parker, C. F. Bell, R. S. Jones and J. E. Utting

Vecuronium bromide anaesthesia for laparoscopic sterilization

J. E. Caldwell, J. M. Braidwood and D. S. Simpson

Measurement of plasma catecholamine concentrations. An Assessment of Anxiety

D. Fell, D. R. Derbyshire, C. J. D. Maile, I.-M. Larsson, R. Ellis, K. J. Achola and G. Smith

EXPERIMENTAL

Interactions between calcium entry blockers and vecuronium bromide in anaesthetized cats

K. A. Anderson and R. J. Marshall

Disposition of vecuronium bromide in the cat

Effects of hepatic uptake of vecuronium bromide and its putative metabolites on their neuromuscular blocking actions in the cat

A. F. Bencini, M. C. Houwertjes and S. Agoston

Determination of the partial pressure of halothane (or isoflurane) in blood

A. M. Zbinden, F. J. Frei, B. Funk, D. A. Thomson and D. Westenskow

CLINICAL INVESTIGATION

Quantitative assessment of the effectiveness of chemical lumbar sympathectomy
P. T. McCollum, V. A. Spence, B. Macrae and W. F. Walker

Comparison of atracurium and alcuronium during halothane anaesthesia by measurement of the train-of-four response of the adductor pollicis muscles and clinical observation
L. P. S. Lin and J. Homi

Cross-reactivity of metocurine, atracurium, vecuronium and fazadinium with IgE antibodies from patients unexposed to these drugs but allergic to other myoneural blocking drugs
D. G. Harle, B. A. Baldo and M. M. Fisher

Meptazinol—a cause of respiratory depression in general anaesthesia
D. J. Wilkinson, S. A. O'Connor, G. R. Dickson and H. F. Drake

EXPERIMENTAL

In vitro degradation of atracurium in human plasma
R. L. Stiller, D. Ryan Cook and S. Chakravorti

Interaction of midazolam with two non-depolarizing neuromuscular blocking drugs in the rat in vitro sciatic nerve-tibialis anterior muscle preparation
J. J. Driessen, T. B. Vree, J. van Egmond, L. D. H. J. Booij and J. F. Crul

Effect of meptazinol on neuromuscular transmission in the isolated rat phrenic nerve-diaphragm preparation
S. K. Strahan, B. J. Fleury and C. Y. Modla

Sister chromatid exchanges in cigarette smokers: effects of halothane, isoflurane or subarachnoid blockade
B. Husum, N. Valentin, H. C. Wulf, A. Halaburt and E. Niebuhr

Abstaining from cigarette smoking has no major effect on gastric emptying in habitual smokers
O. U. Petring, B. Adelbjörn, M. Ibsen, J. Bryntum and H. E. Poulsen

Effect of diazepam on drug absorption and gastric emptying in man
B. Adelbjörn, O. U. Petring, J. Brynna, M. Ibsen and H. E. Poulsen

Piracetam does not change the anaesthetic requirement for halothane
A. Fassoulaki and E. I. Eger

CASE REPORTS

Anaesthesia and progressive muscular dystrophy
C. L. Smith and G. H. Bush

Anaesthetic problems in myotonic dystrophy. A Case Report and Review of the Aberdeen Experience Comprising 48 General Anaesthetics in a Further 16 Patients
L. M. Aldridge

Dystrophia myotonica and atracurium. A Case Report
P. Nightingale, T. E. J. Healy and K. McGuinness

Comparison of four non-depolarizing neuromuscular blocking, drugs in the suppression of the oculocardiac reflex during strabismus surgery in children
U. Karhunen, E. Nilsson and P. Brander
Antagonism of the muscarinic effects of edrophonium with atropine or glycopyrrolate. A Comparative Study
R. K. Mirakhur

1213

An evaluation of the accuracy of pharmacokinetic data for the computer assisted infusion of alfentanil
M. E. Ausems, D. R. Stanski and C. C. Hug

1217

Outpatient termination of pregnancy: halothane or alfentanil-supplemented anaesthesia
K. M. Collins, O. M. Plantavin, R. H. Whitburn and J. P. Doyle

1226

EXPERIMENTAL

Effects of alfentanil on cerebral vascular reactivity in dogs

1232

A sheep preparation for a studying interactions between blood flow and drug disposition. IV: The effects of general and spinal anaesthesia on blood flow and cefoxitin disposition
W. B. Runciman, L. E. Mather, A. H. Ilsley, R. J. Carapetis and R. N. Upton

1239

Mixtures of inhalation and i.v. anaesthetics at high pressure. A Test of the Multi-Site Hypothesis of General Anaesthesia
B. Wardley-Smith and M. J. Halsey

1248

CASE REPORTS

End-tidal carbon dioxide concentration as an indicator of pulmonary blood flow during closed heart surgery in children. A Report of Two Cases
J. L. Schuller, J. G. Bovill and A. Nijveld

1257

Anaesthetic problems associated with Weaver's Syndrome
D. R. Turner and J. W. Downing

1260

CORRESPONDENCE

Etomidate and adrenocortical synthesis in man

1264

Intrathecal morphine and multiple fractured ribs

1266

Electrical activity during induced hypotension

1267

Pre-oxygenation

1268

Opioid receptor binding and its significance

1269

Cutaneous reaction to pancuronium

1269

Index to Volume 57

1270
